harmony

sustainability

wealth creation

To whom it may concern;

I write to support the Remote Area Planning and Development Board submission for Road Sealing and Maintenance throughout Central Western Queensland.

The need for enhanced transport systems was identified in the Australian Tourism Development Program funded 'Our Outback Partnerships and Pathways to Success in Tourism' report that was managed by Desert Knowledge Australia.

The international tourism market and the retiree traveller market are inspired by our Australian Outback and this submission, if successful, would enhance the transport routes available to such groups. It will improve the safety, accessibility and marketability of this region of the Outback..

Yours sincerely,

MIKE CROWE

Networking and Communications Manager
